**MEASURING FOR CAP SIZE**

- **Circumference:** Measure all around the head starting from the front hairline, following over the tops of the ears and back under the base of the skull (which is usually 2.5 cm above the nape hairline).

- **Front to Nape:** Measure from the center of the hairline to the nape of the neck (usually 3.8 to 5.1 cm under the occipital bone).

- **Ear Crown Ear:** Measure from the hairline where the hair starts above the ear (usually 1 cm up from the ear) across the crown of the head extending to the hairline on the opposite side.

- **Ear Front Ear:** Measure from the hairline at the top front of the ears (behind the sideburns where the hair starts to grow - usually 1 cm up and forward from the ear), across the hairline on the forehead and back to the same position on the other side.

- **Temple Back Temple:** Measure from the hairline at the temple then back horizontally across the peak of the back of the skull.

To take these measurements with confidence requires experience with wig fitting. Fitting caps are available - contact FOLLEA® to inquire, also see page 19.
FOLLEA® 2012/13 Next Generation Wigs

THE GRIPPER™-2 COLLECTION

• FOLLEA®'s revolutionary product line for women with little or no hair.
• Available in three incredible designs and four layered lengths.
• Developed especially for use without tape or glue.
• Secure, confident and comfortable fit. Held in place with medical grade silicone Gripper™ panels.
• With added density standard Soft-fit™ Gripper™ back, breathable.
• Made from high quality European ponytail hair, gently hand processed in FOLLEA®'s own world-class atelier to preserve the unique natural quality of each and every strand.
• Hand-tied lace-top and lace-front.
• Choose from any of the 13 FOLLEA® TruLife™ natural color blends (see page 18).

GRIPPER™-2 COOL

• Light, cool, natural looking.
• High-density closely wefted Soft-Fit™ lined back.

A WORD ABOUT SIZE AND FIT FOR THE GRIPPER™-2

The Gripper™-2 next generation wig is designed to fit snugly, for maximum performance, confidence and comfort. The cap for this product line was designed specifically for women with little or no hair to use without tape or glue.

The Gripper™-2 is made with a hand tied lace top and lace front. In Cool and Sport models the back of the wig is created with machine wefting and then lined.

For instructions how to measure for the cap size please refer to page 8.

The Gripper™-2 fitting cap, without hair, may be used as a measurement guide. However, although the size of the cap doesn’t change after adding the hair and sewing wefts, our finished Cool and Sport models will feel a little tighter, especially the ear-to-ear size. This feeling is normal and happens because the wefts do not stretch like a weft-free “stretchy” fitting cap.

To order your own Gripper™-2 fitting cap call us at +49 (0)89 232 490-0 or write to info@follea.eu (for more information see page 19).
